

Diploma in 3D Animation

ABOUT US

Aakhaash Institute of Media Studies (AIMS), Over the 14 years, we have been at the forefront of media education in India. Our syllabus is not just theoretical; it's a gateway to real-world experience! With live practical training integrated into every course, you'll be immersed in hands-on learning from day one. Plus, our inbuilt production studio HIGHKON MEDIAS, provides a unique opportunity to work on industry projects and gain insights from professionals. Get ready to step into the world of practical knowledge!

PROGRAM OVERVIEW

3d animation is the next evolutionary step after 2d animation, using software to generate characters, environments, props and sets in virtual, three dimensional space. 3D Animation focuses on the fundamental principles of Animation. Rather than drawing character by hand, however, 3D animator use digital characters to act out and create captivating performances.
